DOE/EIA-0218(85/13) Distribution Category UC-98

Weekly Coal Production

Energy Information Administration Washington, D C

Highlights

Production of bituminous coal and lignite in the week ended March 30, 1985, as estimated by the Energy Information Administration, was 18,543,000 short tons. This was a decrease of 583,000 short tons or 3.0 percent from production in the previous week. Production in the corresponding week of 1984 18,880,000 short tons. Bituminous coal and lignite production from January 1 through March 30, 1985 totaled 213,881,000 short tons, and from January 1 through March 31, 223,140,000 short totaled tons.

Production of Pennsylvania thracite in the week ended March 30, 1985, as estimated by Energy Information Administration, was 82,000 short tons, 3,000 short tons less than production in the previous week. Production in the corresponding week of 1984 was 64,000 short tons. Anthracite production from January 1 through March 30, 1985 totaled 940,000 short tons, and from January 1 through March 31, 1984 totaled 811,000 short tons.
